

THE CATALYST

Updates

The general meetings typically offer very unique learning opportunities, and this semester is no different. Our AICHE general meetings are a great way to learn more about a company and interact with company representatives directly. To buy or renew your membership, please visit our website's "Become a Member" page.

On March 22, AICHE hosted a general meeting with the main event being a game night. Several different games and activities were played, and prizes were awarded to the winners. April 19 was the last general meeting for the Spring 2023 semester in which Anderson gave a presentation on what their company was about.

During this semester, there was a tour of the **Blackwater Draw Brewing Co.** There was sampling for all members over the age of 21 and a demonstration of the beer making process.

This semester graduation stoles are available for purchase through our Flywire Marketplace!

There are various ways to get involved with AICHE, and coming up soon, there will be an opportunity for new officers to be elected. The newly elected President of AICHE is Delaney Feagans, and the new vice presidents will be announced at JEB Gala.

The George

Southwestern Regional Conference

This semester, the Texas A&M chapter of AIChE hosted the Southwestern Regional Conference which several AIChE chapters from different schools in the Southwestern region attended. Some of the schools included UT, Texas Tech, Prairie View A&M, McNeese, and even a school from Monterrey! Some of the events included in the conference were the Chem-E Car competition, Chem-E Jeopardy, Chem-E poster competition, and so many more. Additionally, there were several individuals who gave presentations about various Chemical Engineering topics who are involved with AIChE or from one of the company sponsors of the conference.

JEB Gala

At this year's **JEB Gala** on Saturday, April 29th, the new officers and VPs of AIChE will be announced. Attendees at the Gala can expect to see the new VP of Programs, Internal, and Publicity. These positions are hand selected through an application process that occurred in the middle of April this semester. The new officer positions are Mentorship Chair, Community Service Chair, Historian, and Special Events Coordinator. These positions also go through an application process but are chosen by a popular vote. The new AIChE President will also be officially introduced at the Gala.

Big Event 2023

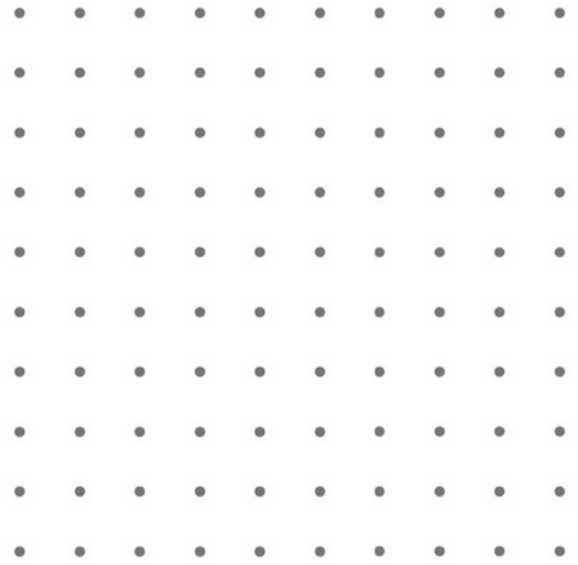

This March, The Big Event took place at Texas A&M University. Annually, tens of thousands of A&M students volunteer in this student-run service event to “thank” the residents of the Bryan-College Station community, many of whom are former Aggies themselves. This year, many of these volunteers included AIChE members who were able to make a large impact on the lives of many through simple tasks such as freshening up front yards and back yards and interacting with the Bryan College Station community. All of these acts of service were again done for locals in the Bryan-College Station area. Overall, both the AIChE members and all of the other volunteers participating in this event were able to complete their goal of appreciating local residents and promoting unity between the A&M campus and the surrounding community.
